About KCES's IMR

Khandesh College Education Society, Jalgaon, established in 1944 is a profound academic movement with various institutes under its umbrella. Institute of Management & Research, Jalgaon was established in the year 1986 and is a pioneer institute in the field of management education in North Maharashtra Region, and continues to be an Institute of repute in its 35th year!

The Institute stands tall in North Maharashtra with dedicated and committed faculty, good infrastructure, learning resources and progressive teaching pedagogy with consistent placement record and a vibrant campus life.

Located in the heart of the city, IMR has an enviable infrastructure, a spacious lobby and computer labs, latest teaching aids and learning resources. The Institute has well stacked libraries with numerous National & International Journals along with adequate e-journals and a number of titles.

Our institute has tie-ups with prestigious organizations both academic and from industry which is a part of our continuing efforts to improve the quality of education and exposure to students and society.

The Institute is well known for activities which are not only student friendly but also focus on the upliftment of society in general and stakeholders in particular. The institute was recently awarded 'Outstanding Management college in India for Industry interface 2019' recognized for outstanding contribution to Education, Skill and Research at the hands of President C E G R and Member secretary AICTE New Delhi.

About the Program

Examining the practice of identifying best teaching methods, which can ensure incorporation into subsequent year's lessons. We presume that Higher education incorporates 1. Student-Centered Discussions 2. Making Connections 3. Increased Autonomy, 4. Building Relationships, 5. Focus on Literacy. 6. Learning management software modules.

Building relationships in the classroom is extremely powerful for students' behavioral and academic success. Teachers can help build relationships by meeting with students and creating team-building projects. In order to equip the teachers with the power to engage, facilitate, and empower the student we need to have a deep insight into higher education and teaching learning management.

Adoption and Standardization of teaching learning management can be done by providing pertinent academic work, empirical research findings, and an overview of LMS usage in higher education institutions.

Objectives of the program

1. To provide an insight into the challenges faced by the academicians to cope with current technological advancements
2. Emerging and best practices in LMS adoption and usage
3. To identify resources to enhance teaching learning experience of both teachers and students
4. LMS impact studies

Vision & Mission

Vision:

"Committed to provide value based, quality, professional and technical education to the students and empowering them with the required skillsets and competencies to face challenges of the fast changing global environment."

Mission:

- To provide necessary technical and professional education with a view to uplifting the lives of rural and urban students.
- To create a conducive platform for students to develop their skills and knowledge.
- To encourage innovation and research aptitude among students.
- To inculcate global ethics and human values in all the learners.
